PROFESSIONAL SUMMARY

Detail-driven **Motion Graphics & Interaction Designer** with 2+ years of independent and freelance experience transforming creative briefs into high-impact animations across digital products, marketing campaigns, and brand identity systems. High proficiency in **After Effects, Premiere Pro, Illustrator, Photoshop, and Figma**. Recognized for combining rhythmic pacing (kinetic typography, audio-sync, emotional timing) with sophisticated **UI/UX motion choreography** and **2.5D spatial camera animation**. Adept at managing end-to-end production pipelines from concept storyboarding to final multi-platform delivery.

TECHNICAL SKILLS & CORE COMPETENCIES

Motion & Animation:	2D Animation, Kinetic Typography, UI/UX Motion Choreography, Logo & Identity Animation, Loop Architecture, Storyboarding, Explainer Videos, Product Teasers.
Software & Tools:	**Adobe After Effects**, **Premiere Pro**, **Illustrator**, **Photoshop**, **Figma**, Media Encoder, Lottie.
Spatial & 2.5D:	3D Camera Tracking & Null Rigging in AE, Parallax Depth, Isometric Projection, Spatial Typography, AE Cinema 4D Lite / Ray-Traced Compositing.
Audio & Timing:	Waveform Beat-Matching (AMV editing expertise), Sound FX (SFX) & Voiceover Integration, Custom Easing Curves, Color Grading, Encoding (WebM/MP4).

EXPERIENCE

Freelance Motion Graphics & UI Designer
2024 – Present | *Remote*

- **End-to-End Production:** Spearheaded motion graphics and UI animation assets for tech startups, creative agencies, and independent creators, delivering 15+ animated campaigns, UI interactions, and brand identities.
- **Storyboarding & Execution:** Transformed ambiguous creative briefs and wireframes into narrative animatics, kinetic typography sequences, and interactive motion guidelines adhering to tight production schedules.
- **Cross-Functional Collaboration:** Partnered with marketing leads, video editors, and UI/UX designers to deliver high-retention motion assets tailored for web performance and social media engagement.
- **Audio & Narrative Sync:** Engineered dynamic audio-visual synchronization incorporating voiceovers, ambient soundscapes, and beat-matched SFX to enhance narrative impact and retention.
- **Brand Identity Governance:** Built unified brand motion systems featuring custom easing curves, loop architectures, and timing tokens that ensured visual harmony across multiple client touchpoints.

FEATURED MOTION & INTERACTION PROJECTS

Extraordinary — Kinetic Typography & Brand Art Direction
After Effects, Photoshop, Premiere Pro

- Directed and animated an expressive kinetic typography showcase featuring rapid-fire text choreography, chromatic dispersion, and beat-matched cuts.
- Utilized 3D camera tracking, spatial typography, and layered compositions to maximize brand recall and viewer retention on social media.

StockBud — Fintech UI Motion & Data Visualization
After Effects, Figma, Illustrator

- Choreographed product animation sequences and data-driven charts for a modern trading application, communicating financial momentum and clarity.
- Engineered real-time visual feedback loops, micro-interactions, and fluid transitions that demystified complex financial workflows.

Infinity — Brand Motion Identity & System
After Effects, Illustrator, Media Encoder

- Designed an omni-channel motion identity system founded on infinite loop architecture, standardized easing formulas, and seamless logo transitions.
- Rendered lightweight, high-performance WebM motion assets maintaining visual fidelity across web and mobile viewports.

Muster AI & T2Chat — AI Product Choreography & Concept Demos
After Effects, Figma, Premiere Pro

- Choreographed interface motion and product explainer animations for conversational AI platforms, solving user perception during message latency.
- Produced animated product walkthroughs detailing intelligent AI workflows for early-stage stakeholder presentations.

Vireclub — Web3 Community Motion Identity
After Effects, Illustrator

- Animated brand visual identities featuring subtle spatial transitions, particle depth, and ambient glow effects reinforcing community exclusivity.

EDUCATION

Bachelor of Technology / Engineering (In Progress) | *Interactive Systems & Software* ***Expected 2027 / 2028***
